

We're supporting Scottish independents

Independent generators that is.

Because at SmartestEnergy, we're committed to helping smaller-scale renewable energy projects get off the ground. This means landowners, communities and businesses can boost their income, and Scotland can take a step closer to meeting its climate change targets.

It's this commitment that's made us the UK's leading purchaser of independently generated electricity.

Want advice on selling your energy or how to get started? Come and talk to our Business Development Managers at **Stand J129**. And pick up your free Guide to the Feed-in Tariff too. You can also get in touch on **020 7448 0900** or **ppa@smartestenergy.com**

smarter brighter better

SmartestEnergy Ltd is a wholly-owned subsidiary of the Marubeni Corporation of Japan
